

MVA Test Kit:

In this kit you will receive: a pre-labeled priority mail box for shipping your sample, a sample container, instructions, and contact information.

Instructions:

1. Open the container and fill a morning urine sample.
2. Return the sealed container to the plastic bag and seal the bag.
3. Fill out the contact information form.
4. Place the bag with the container and contact information in the pre-labeled priority mail box and seal the box.
5. Provide postage for the box and mail.

Note: Be sure to indicate where you would like your results to be sent and if you would like the Watershed Wellness center to receive a copy. Once you have your results you can contact the Watershed Wellness Center to order your 90 day supple of customized Angstrom Minerals.
